ANNOUNCEMENT FOR 1875.

THE Publishers of the BUFFALO CITY DIRECTORY, in presenting the volume for the current year, take pleasure in calling attention to the continued growth of the city, as shown by the canvass. The volume contains FORTY-FIVE THOUSAND ONE HUNDRED AND FIFTY-EIGHT names—an increase over last year of three thousand nine hundred and seventy-four names. On the basis of four and one-eighth persons to each name, Buffalo has a population of over one hundred and eighty-six thousand. The constant growth of the manufacturing interests, and the increase of the facilities for the transaction of business, contribute steadily to the prosperity of the city.

The Directory contains the usual variety of detailed information in regard to the municipal government and the public, religious, educational and charitable institutions of the city.

No Directory can be absolutely correct; but special efforts have been made to secure an accurate canvass, and to correct, as far as possible, the errors of previous editions. This edition contains seven hundred and sixty-one pages—an increase of sixty-six pages over last year.

STREET AND AVENUE DIRECTORY.

EXPLANATION.

It will be noticed that in this Street Directory the names of the streets are set down in alphabetical order, giving the course which they run, according, as near as possible, to the points of the compass, and enumerating all streets which cross the same in the order in which they occur. The number on one corner has been given, so that a person wishing to find, say, 495 MAIN STREET, on consulting the Street Directory, finds that the right hand corner of Main and Mohawk is 487, consequently the place he seeks is only a few doors above.

The object of this Society is the promotion and study of the Natural Sciences, through the formation of a Museum and Library, the procurement of Lectures, and the use of such other means as shall be found effective. Its primary duties and objects are the collection and preservation of specimens of every vegetable and of every animated being, other than man and the domestic animals (indigenous to Buffalo and its vicinity), and of every rock, fossil and mineral, of the surrounding country; to classify, arrange and make catalogues of them; to send catalogues of them to its correspondents, and to all lovers of natural science who may desire them; to observe, record and diffuse a knowledge of all facts illustrative of the nature and habits of such animals and plants; and, so far as it can, to supply the desiderata of its friends and correspondents. By a reciprocation of the services it desires to render others, as well as by such purchases as it may be able to make, and the gifts of our liberal citizens, its collection will soon represent far more than the local natural history; and it hopes and expects that its rooms will be attractive and useful to naturalists, as well as gratifying to the instructed admirers of God's wonderful works. PIANO FORTE

BATAVIA STREET, CORNER OF ELM.

All our instruments are built of the best and most thoroughly seasoned materials. Their tone is deep, round, full and mellow, the touch elastic. We were

AWARDED THE FIRST PREMIUM

at the New York State Fair, in 1862; also the First Premium at the International Industrial Exhibition, Buffalo, in October, 1869 and 1871; and we claim the right of saying that our make of Pianos is superior to any manufactured in this country.

EXTRACTS FROM THE "ROCHESTER UNION."

MR. G. W. ELLIS—Dear Sir: I take much pleasure in saying that the Piano you furnished for Grau's Opera Troupe in this city, manufactured by Messrs. Kurtzman & Hinze, is a very fine instrument—indeed as good as I have ever used.

Yours truly,

E. MUSIO,

For which we are Agents, and which we unhesitatingly pronounce the best Heating and Ventilating Apparatus for dwellings, Stores, Churches and Public buildings in this country. The following is one of the many testimonials in our possession:

BUFFALO, March 30th, 1870.

Messrs. IRLBACKER & DAVIS,

Gentlemen:—I have the "Union Steam Heater," for which you are agents, in my house, and have used it for two years. I regard it as the most perfect heating apparatus with which I am acquainted. The atmosphere of my house is uniform, soft and pleasant, and it is always comfortable as summer. I regard it as an economical apparatus, as far as its consumption of fuel is concerned, and by its use we avoid the sudden and violent changes that are unavoidable in using any Hot Air Furnace that I have ever used or seen.

NOTICE TO THE TRADE

CONCERNING

THE COURIER COMPANY'S

BUFF-TINTED COPYING PAPER.

CHEAPEST AND BEST PAPER MANUFACTURED.

Circulars have been issued to the Stationery Trade, advertising our numerous customers as "unprincipled jobbers and dealers," and threatening them with prosecution, which are doubtless intended to intimidate them against purchasing or using

THE COURIER COMPANY'S

BUFF-TINTED COPYING PAPER,

and have gone so far as to state that in some instances our Paper has been represented to be another article made by other parties.

We have bestowed years of labor in bringing our Paper to its present perfection, and so far from having any desire to confound it with any other, have labored assiduously to preserve its identity with us.

It is our intention not to permit the trade to be intimidated in the purchase of our Paper. We are able to supply the market with a superior article, at less price than any other, and propose to do so.

If you buy any Copying Paper or Books made by us, we shall protect you against any loss by reason of prosecution or infringement upon the pretended rights of any manufacturer.

Every one of our Copying Books has pasted on the front inside cover a label, reading "THE COURIER COMPANY'S BUFF-TINTED COPYING PAPER." Then follow a few lines setting forth the advantages of our Paper, with directions for copying, &c.

All our Books are done up in packages of one-quarter dozen each, with a label on the outside of package which reads, "The Courier Company's Buff-Tinted Copying Paper, Copying Books," size, number and thickness.

Our Buff-Tinted Copying Paper is done up in packages of two reams each, with label on the outside of each package as follows: "The Courier Company's Buff-Tinted Copying Paper." This label also contains a list of all the sizes of Paper we manufacture, with other instructions in regard to using this Paper, &c.

We have been somewhat particular in describing the manner in which our Paper and Copying Books are sent out to the trade, so that they may more readily identify them, and understand that we do not wish to confound them with any inferior article.

THE MERCANTILE AGENCY

R. G. DUN & CO.,

COR. WASHINGTON AND EXCHANGE STS., BUFFALO, N. Y.

JOHN H. SMITH, Manager.

We respectfully announce that

A Revised Edition of our Reference Book,

Containing the

NAMES, BUSINESS, WORTH, and CREDIT STANDING OF 700,000 TRADERS,

IS ISSUED ON THE

FIRST DAY OF JANUARY, MARCH, JULY AND SEPTEMBER.

The MERCANTILE AGENCY has been in successful operation for about Thirty-five Years, and was

The First Organization of the kind established in America for the Promotion and Protection of Trade.

The yearly extension of its operations, the ever-increasing patronage it attracts and retains, are evidences of its efficiency and success. It has stood the test of time and overcome many difficulties and prejudices, and at no period since its origin has it exercised such important functions in commercial affairs as now. There are

SIXTY-EIGHT BRANCH OFFICES,

under one general management, and co-operating for a common end. Each has a well appointed management and a certain district assigned, which is periodically revised by its own travelers. It is in this manner that we are enabled to report thoroughly and exhaustively the ENTIRE UNITED STATES and BRITISH NORTH AMERICA, our Agents accepting only that information which has been endorsed by well-posted authorities, and the points in which referring to REAL ESTATE, MORTGAGES, JUDGMENTS, &c., have been obtained from official sources. We are also promptly informed of all changes by our numerous resident correspondents. The rapid growth of our business and the magnitude of our organization stamp us as pre-eminently THE AGENCY. It is the only one which, by its

LEGITIMATE RESOURCES AND HIGH POSITION,

commends itself to the full confidence and patronage of the public. We leave no effort unspent to do justice to the Wholesale Trader, Banker and Manufacturer, who seeks our information, by thorough, efficient and unprejudiced reports of those with whom they transact business.

AMERICAN

DISTRICT TELEGRAPH COMPANY

A little instrument introduced by the American District Telegraph Company, is destined to speedily become an indispensable acquisition to housekeepers. It is the

HOME TELEGRAPH,

An instrument about the size of an ordinary tumbler, by means of which

EITHER BY DAY OR BY NIGHT,

The possessor can signal to one of the District Offices of the Company, and call at his pleasure, by the touch of a key,

A MESSENGER, A POLICEMAN, OR THE FIRE DEPARTMENT.

DAY AND NIGHT SERVICE

OFFICES NEVER CLOSED.

This Company receives orders from occupants of houses, stores and offices for its apparatus, which is furnished subscribers and connected with one of its District Offices.

The Company will furnish

Messenger, Private Police and Fire Alarm Service,

and, as additional security against fire and burglaries, any subscriber's house will be visited by the company's patrolling policemen at stated hours during the night.

Subscribers having the apparatus can signal for messenger or policeman, who will respond within from two to five minutes, prepared to perform any reasonable service.

A subscriber, awakened by a burglar, can touch the telegraphic key, located near his bed, which will record the number of his house at the District Office, and within three minutes a policeman will be at his door.

Two dollars and fifty cents per month will be charged each subscriber for use of instrument connected with the office of the district within which he is located; bills for which will be rendered monthly.

No charge will be made for placing the telegraphic apparatus in the houses, offices or stores of subscribers, or for keeping the same in working order.

For further particulars call at the General Office, **No. 15 West Chippewa Street or at 14 West Seneca Street and 213 Niagara Street.**

In the long list of inducements offered by Life Insurance Companies, there are two plans which recommend the *Life Association of America* above all others. The first is the

ADVANCE DIVIDEND PLAN.

This is original with this Company, and is offered by no other. It gives on all life and endowment policies at their issue a fixed and certain dividend in advance, in the form of additional insurance of twenty-five per cent. of the amount insured under the policy, viz.: a $1,000 policy stands $1,250.00; $4,000.00 policy $5,000.00; $8,000.00 policy $10,000.00, *making a virtual reduction of premium at once.* It is expected that the surplus arising from the payment of the full premiums for ten years will prove sufficient to secure the additional insurance of twenty-five per cent. for the full term of the policy, leaving dividends to reduce the yearly premiums thereafter.

The second feature is that of

Continued Full Insurance under Lapsed Policies (except Term Policies),

which is particularly beneficial to policy-holders. When a policy lapses by non-payment of premium—two years' premium having been paid—if a paid-up policy be not applied for so as to take effect on the day when the premium is due, then, in lieu of such paid-up policy, the insurance will continue in force under the original policy FOR THE FULL AMOUNT INSURED, as long as the value will carry the risk. Thus, under this system, a Ten Payment Life Policy for $10,000 on a life aged 40 at date of issue, two years' premiums having been paid, would continue in force for the full $10,000 for *five years and two hundred and seventeen days after the cessation of payment of premiums.* If the insured die during the period of the extension of the policy, the full amount of the insurance will be paid WITHOUT ANY DEDUCTION FOR PREMIUM OR INTEREST. This is the Massachusetts law improved.

JEROME PIERCE & CO.,

MANUFACTURERS OF

SHINGLE, HEADING, STAVE AND SAW MILL

MACHINERY,

Self-Feeding, Self-Tilting, Self-Dogging.

Saws from 3,000 to 5,000 per Hour.

Patented April 17th, 1866.

OUR AUTOMATIC TWO-BLOCK MILL.

This is a machine which we unhesitatingly present to the public as the BEST TWO-BLOCK Mill in use. It is constructed entirely of iron and steel, and in a simple and durable manner. The advantages of this machine are: the LARGE QUANTITY OF WORK turned out, its QUALITY, and the SAVING OF LABOR,—one man tending it easily. The machine is so constructed that when one block is being sawed the other is receding, ELEVATED ABOVE THE SAW, which is done by the tracks upon which the carriage runs being raised and lowered by a simple arrangement not liable to get out of order.

The advantages are, that the saw will run LONGER WITHOUT REFILING, as the saw comes in contact with the block only when cutting. The block not coming in contact when receding, the upper side of the saw is dulled no faster than the lower, a desideratum not accomplished in any other machine. Any one will readily see that the saw will run much longer before refiling, and also avoid making dipped shingles as in other machines, where one side of the saw becomes duller than the other. It has the advantage of other two block mills in using 40 inch saws instead of 36, and the carriage consequently requiring less distance to travel to cut the same width shingle.

It has the self-acting tilting table operated by the movement of the carriage, and by raising the paul, you make as many shingles as you please one way, if desired.

Awarded the Silver Medal at the Ohio State Fair, Toledo, 1868. Awarded the Silver Medal at the Michigan State Fair, Detroit, 1868. Awarded the Highest Premium at International Industrial Exhibition, Buffalo, N. Y., 1869 and 1871.

We also manufacture Automatic One Block Shingle Machines, Hand Feed Single Block Shingle Machines, Wheel Jointers, Saw Jointers, Bolting Machines, Drag Saws, Wood Splitters, Wood Saw Tables, and Saw Mill Machinery, with the Latest Improvements.

EXTRACT FROM THE OFFICIAL REPORT OF THE

JURY ON MUSICAL INSTRUMENTS

Exposition Universelle, Vienna, 1873.

"We regret that the celebrated Inaugurators of the new system in Piano-making, Messrs. STEINWAY & SONS, of New York, to whom the entire art of Piano-making is so greatly indebted, have not exhibited."

Letter from the celebrated Pianist and Composer ANTON RUBINSTEIN, being the only testimonial ever given by him to any Piano Manufacturer.

Messrs. STEINWAY & SONS, NEW YORK, May 24th, 1873.

GENTLEMEN:—On the eve of returning to Europe, I deem it my pleasant duty to express to you my most heartfelt thanks for all the kindness and courtesy you have shown me during my stay in the United States; but also, and above all, for your unrivaled pianofortes, which once more have done full justice to their world-wide reputation, both for excellence and capacity of enduring the severest trials. For during all my long and difficult journeys all over America, in a very inclement season, I used and have been enabled to use your pianos exclusively in my 215 concerts, and also in private, with the most eminent satisfaction and effect.

Yours very truly,
ANTON RUBINSTEIN.

STEINWAY & SONS' MAMMOTH MANUFACTORY is the most extensive establishment of its kind in the world.

EVERY PIANO WARRANTED FOR FIVE YEARS.

Prices as low as the exclusive use of the best materials and most thorough workmanship will permit. Old Pianos taken in exchange.
